

# *Small in Size. Big on Performance.*

## **Isolated Power Module Solutions**

DC-DC Power Converters **1-150W**

AC-DC Power Supplies **3-60W**

MINMAX delivers miniaturized power converters that free board space, simplify integration, and maintain dependable performance for demanding industrial systems.

## Industrial Power Solution

### 1-80W & 0.5-1A

Compact Power Modules for Space-critical Systems  
High Efficiency and High Power Density  
Reduce Design Time and Simplify Integration

## Railway Power Solution

### 3-150W

Rugged Power Modules for Harsh Rail Environments  
Railway and Fire Protection certified to EN 50155(IEC60571) & EN 45545-2  
Temperature Cycle Test (TCT) passed more than 1000 cycles

## Ultra-High Isolation Power Solution

### 1-60W

Ultra-high Isolation up to 5000 VAC/1min & 9000 VDC/1sec  
Reinforced Insulation, Rated for 1000Vrms Working Voltage  
Designed with 8 mm creepage & clearance

## Medical Power Solution

### 1-60W

I/O isolation up to 5000 VAC/1 min with Reinforced Insulation  
IEC 60601-1 & ANSI/AAMI ES60601-1 Approved  
Medical Safety with 2×MOPP Level
